#### Application Form

### **REQUEST FOR Deviation from the ENGINEERING DESIGN STANDARDS (APPROVED BY ORDINANCE 103-2001)**

Where due to physical constraints, hardships, or special conditions of the site which prohibit meeting specific requirements within the City [Engineering Design Standards](#) (EDS), the applicant may seek a deviation from those provisions. In accordance with the EDS sheet 1, "Foreword" paragraph 5:

"The Directors or designees of the Public Works Department and the Department of Community Development (DCD) may approve deviations to the Standards as applicable, provided the deviations are acceptable engineering practice and meet or exceed all Standards."

Please note that **all** requests:

- Shall provide ample justification in writing and supporting documentation that the proposed alternative is designed in accordance with acceptable engineering practice and meets or exceeds current standards.
- Must be signed and sealed by a Florida Licensed Professional Engineer.

Submit this application with all plans and supporting documentation to justify the proposed deviation, including but not limited to site plan, landscape plan/buffer plan, elevation drawings or detail sheets and justification letter.

The justification letter and supporting engineering exhibits must be digitally signed and sealed by the Engineer of Record.

Submit the requested deviation online as via your CSS portal.
